

ECOmega®

CUSTOMIZED FISH + ALGAE OMEGA-3 SOLUTIONS

MORE FLEXIBILITY IN EVERY FORMULATION

ECOmega® combines fish and algae-derived Omega-3 oils to create customized EPA and DHA solutions.

By bringing complementary sources together, ECOmega® gives brands greater flexibility to manage sourcing, formulation requirements and changing raw-material conditions — while keeping EPA and DHA at the heart of the solution.

The Omega-3 expertise you know. More flexibility in how you build it.

TWO SOURCES. ONE CUSTOMIZED SOLUTION.

Fish oil remains the established foundation of Omega-3 nutrition, providing a trusted source of EPA and DHA.

Algae-derived Omega-3 offers a complementary source with different production and supply characteristics.

ECOmega® brings these two sources together, allowing us to develop a blend around your specific requirements.

Rather than replacing fish oil, ECOmega® uses algae as a complementary source, giving formulators another option when designing an Omega-3 solution.

Our team can tailor the blend to your required:

- EPA + DHA concentration
- EPA:DHA ratio
- Fish/algae source combination
- EE or rTG format
- Application and formulation requirements

BUILDING RESILIENCE INTO YOUR OMEGA-3 SUPPLY

Marine raw-material availability, catch conditions and market dynamics can all affect supply and cost. ECOmega® adds a second raw-material stream, so you're no longer relying on a single source.

QUALITY FROM A GLOBAL OMEGA-3 EXPERT

Fish and algae Omega-3 expertise from KD Nutra®, under one quality system. All ECOmega® products comply with applicable GMP requirements for dietary supplements and meet the oxidation and impurity parameters of the GOED Monograph.

How ECOmega® helps your brand

Supply Resilience

Helps you build a sourcing strategy that is less dependent on a single source.

Cost Stability

Fish and algae oils follow different price dynamics. Blending them helps spread your exposure to raw-material volatility.

Formulation Flexibility

Specify the EPA and DHA concentration, ratio and format your product needs, without being limited by one source.

One Expert Partner

Fish and algae expertise under one specification and one quality system, from ingredient to finished solution.

Let's build your blend.
