# SUPERIOR VEGAN AND ALGAE SOLUTIONS

Alga3®
EPA+DHA

Alga3® is a brand of KD Nutra®
Creating Health Solutions

# Sustainable Innovation for a New Generation of Consumers

Driven by market and consumer demand, KD Nutra® has searched for the most **environmentally-friendly** and innovative forms of Omega-3. **Alternative vegan sources** of Omega-3, such as **algae oils**, meet the expectations of the new generation of consumers seeking products with minimal impact on the ecosystem without compromising quality and taste. Alga3® from microalgae provides a breakthrough nutritional platform of **sustainable vegan Omega-3 concentrates** from microalgae, which can be **customized** to provide a **vegan alternative to fish oil**.

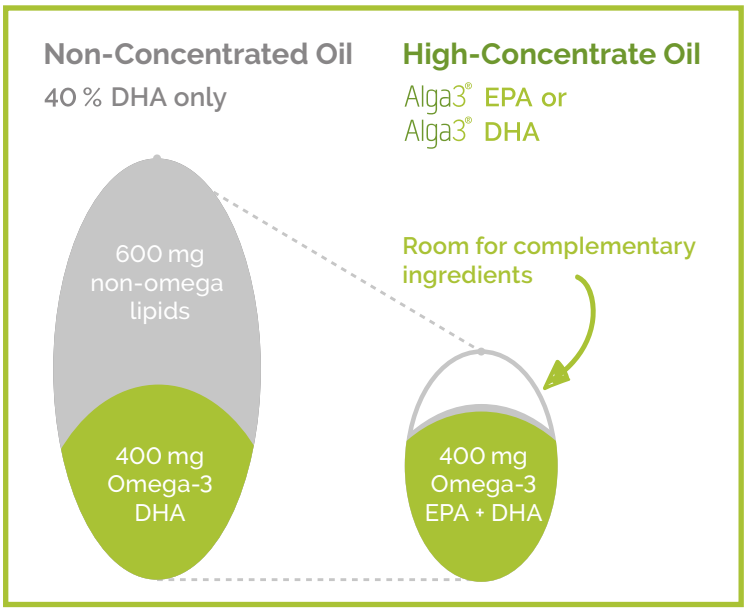

# Omega-3 Concentrates: Always a Good Idea!

Our bodies need Omega-3s to support a healthy lifestyle. They play a role in **overall health**, including **heart, brain and eye health**, and a **healthy pregnancy**, and their benefits are supported by thousands of published scientific studies. GOED (the Global Organization for EPA & DHA Omega-3s) recommends consuming 500 mg of combined EPA and DHA per day for general health, and higher quantities for specific life stages or health conditions. The recommended intake can hardly be covered by normal diet alone, thus Omega-3 supplementation remains the most convenient way to **enjoy Omega-3 benefits** and **avoid deficiency**.

# Market Leaders: We Offer High-quality Algal Oils

At KD Nutra® we use multiple state-of-the-art purification technologies processes which allow for the production of Omega-3 microalgae oil, that is **unsurpassed in quality and purity**. We provide high algal Omega-3 concentrations **up to 95 % EPA and 95 % DHA.**

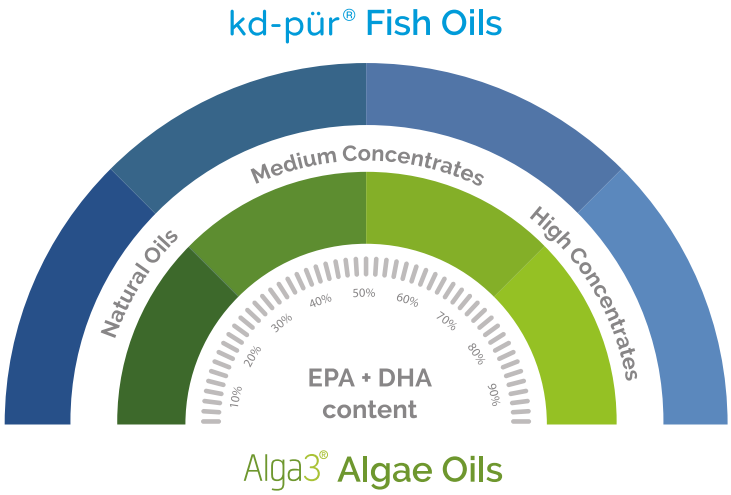

Higher concentrates mean smaller dosage per serving, which results in improved consumer compliance, room in complex formulas for complementary ingredients, as well as lower transport and handling costs.

# Think of Any Fish Oil Concentrate,
# KD Nutra® Can Make it Vegan!

KD Nutra's **superior technology** and production flexibility allows for a wide range of Omega-3 concentrates. This means **we can customize the EPA : DHA ratio to customer needs**.

*The Alga3® platform can deliver microalgae oils in different formats, whether in vegetarian softgel capsules or bottles liquids we have the solution that fits your needs. We can provide vegan Omega-3 fatty acids in* ***many concentrations and ratios****, as well as innovative Omega-3 blends with other proprietary ingredients.*

# Vertically-integrated
# Vegan Turnkey Solutions

For over 30 years, KD Nutra® has pioneered the development of great-tasting marine-derived Omega-3 liquids, and now we can offer a 100 % vegan alternative.

These clean-labeled products provide not only a full sensory experience, but also with the effective use of antioxidant, result in stable products with great flavor that deliver essential Omega-3s to your daily diet.

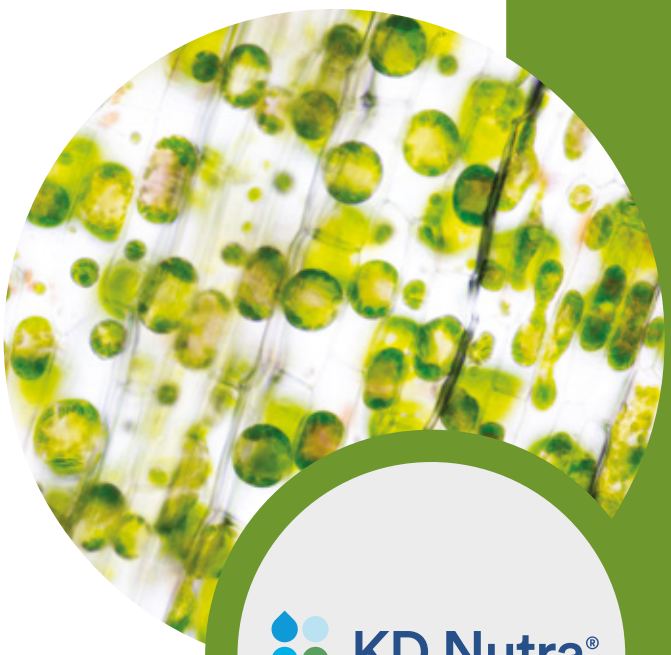

In addition to a liquid solution, KD Nutra's softgel center of excellence can provide innovative softgels from simple oils to complex suspensions, that delivers consistent quality softgels.

Thanks to our **advanced Innovagel® technology** we can offer animal and **non-animal gelatin softgels** for a **complete vegan finished product**!
