

MOVE3®

A CUSTOMIZED OMEGA-3 FORMULATION DESIGNED TO KEEP YOU FEELING YOUR BEST AFTER EXERCISE

WHAT IS MOVE3®?

It's a specialized blend of high potency, high purity Omega-3 oil supported by clinical research and manufactured by KD Nutra® at our pharmaceutical plant in Germany, combined with a proprietary eggshell membrane product called NEM® which is supplied exclusively to KD Nutra®.

EVIDENCE

NEM® combined with Omega-3s (including EPA & DHA) was used in a clinical study, highlighting how its bioactive molecules can work synergistically within the body after physical activity and throughout an active lifestyle.

Omega-3s (EPA & DHA) play a role in physiological processes involved in the body's response to exercise and may help support physical activity.

The published study reported improvements in muscle soreness and joint discomfort following exercise.

CLINICALLY STUDIED FORMULATION

A published human intervention study presents the result of the intake of Move3® Proprietary Blend and placebo by men and women.
