

GIVE PETS THE VITALITY THEY DESERVE – POWERED BY OMEGA-3 OILS FROM KD NUTRA®

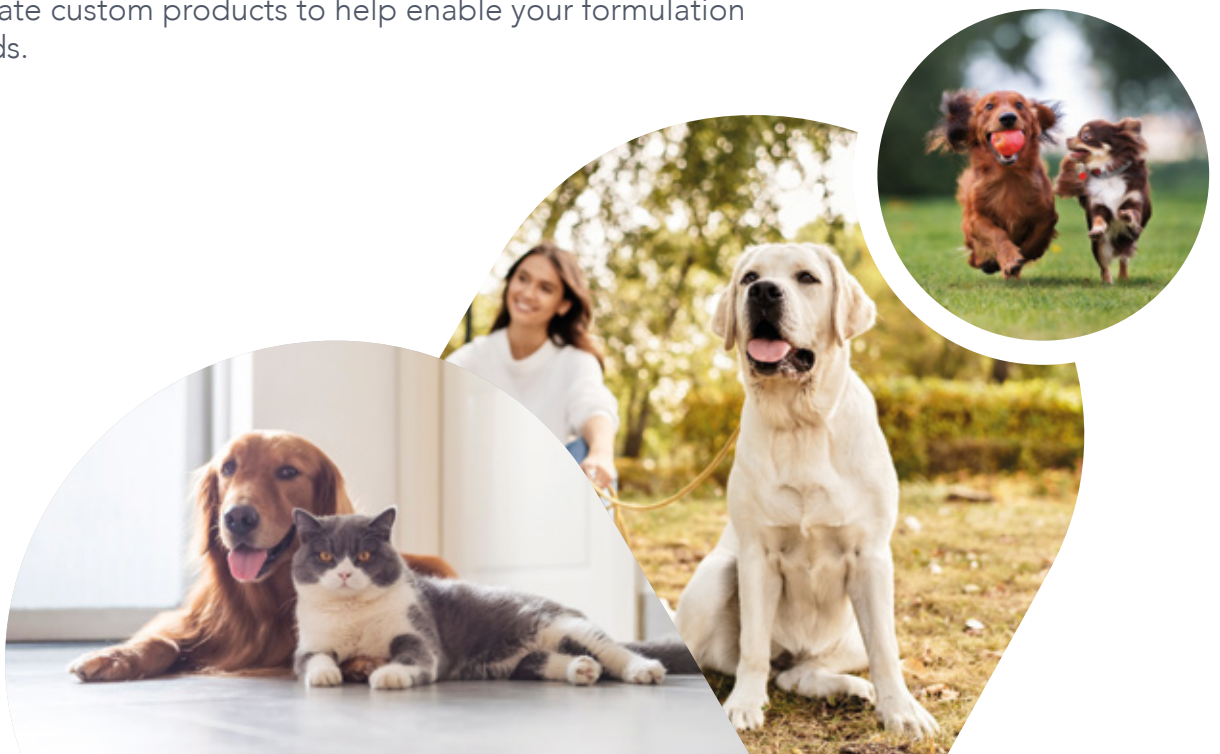

Pets are more than just animals – they are family. And just like any family member, they deserve the very best in nutrition and care. That's where KD Nutra®'s oils come in.

With over 27 years of experience in Omega-3 oil manufacturing, KD Nutra® has earned a reputation for producing premium Omega-3 oils sourced from fish oil and, more recently, algae. We supply top-tier oils to the animal nutrition, infant nutrition, pharmaceutical, dietary supplements, and functional food industries. Our commitment to purity and quality ensures that every drop of oil we produce is of the highest standard.

Our extensive heritage, expertise, and robust manufacturing capabilities enable us to create oils ideally suited for animal nutrition and health. Our Omega-3 oils are manufactured in the world's largest Omega-3 refining plant located in northern Peru close to the fisheries where these highly beneficial oils are sourced.

WHY CHOOSE KD NUTRA® OMEGA-3 OILS FOR YOUR ANIMAL NUTRITION PRODUCTS?

We source our oils from sustainable and responsible fisheries, (our oils are all Friends of the Sea certified), they are purified to ensure the highest degree of safety and quality, tested rigorously, and crafted with care because pets deserve nothing less. And we are ready and able to work with you to create custom products to help enable your formulation and claim needs.

SOME OF THE BENEFITS OF OMEGA-3S FOR PETS

General Health

Evidence exists to support a conditionally essential role for DHA in dogs.¹

Skin & Coat

Contains Omega-3 fatty acids, known to play a role in maintaining healthy skin, hydration and healthy-looking sheen.²

Joint Function

Formulated with Omega-3 fatty acids known for their role in maintaining joint function and supporting mobility.³

Cognitive and Cardiac Function

DHA, a key Omega-3 fatty acid, supports cognitive function and cardiovascular function in pets, contributing to overall vitality.⁴

Normal Inflammatory Response

Omega-3 fatty acids play an important role in supporting skin, joint, and cardiovascular function in dogs, contributing to overall vitality. Beneficial as part of a balanced diet for older and breeding animals.⁵

Better Reproductive Function

Omega-3 fatty acids are involved in normal reproductive physiology and contribute to overall nutritional balance in breeding animals.⁶
